

buscarEstudiantePorCarne

```
graph TD; A[buscarEstudiantePorCarne] --> B{Utiliza buscarPosicionPorCarne}; B -- "Lo encontré" --> C[Retorna al estudiante]; B -- "No lo encontré" --> D[Retorna no encontrado];
```

This flowchart illustrates the process of searching for a student by their ID card. It begins with a rectangular process box labeled 'buscarEstudiantePorCarne'. An arrow points down to a diamond-shaped decision box labeled 'Utiliza buscarPosicionPorCarne'. From the bottom-left of the diamond, an arrow points to a light gray rectangular box labeled 'Lo encontré', which then leads to a green rectangular terminal box labeled 'Retorna al estudiante'. From the bottom-right of the diamond, an arrow points to a light gray rectangular box labeled 'No lo encontré', which then leads to a red rectangular terminal box labeled 'Retorna no encontrado'.
